Proper Use of Changing Room Facilities

Dear Members and Guests,

It has recently come to our attention that wet personal clothing has been left hanging in the Male and Female Changing Rooms of Club Siena for extended periods, with certain items remaining unclaimed for several days. Such circumstances not only compromise the cleanliness and hygiene of the changing room facilities, but also cause inconvenience to other users.

In order to preserve the proper environment and orderly use of the Clubhouse facilities, regular inspections will be carried out. Should any personal clothing or belongings be found hanging or left in the changing rooms without being claimed, the Clubhouse reserves the right to remove such items and treat them as lost property without prior notice.

Members and guests are respectfully reminded to check their belongings carefully and remove all personal items upon departure. Please refrain from leaving clothing hanging in the changing rooms for extended periods, as any such items may be removed and handled as lost property.

Thank you for your understanding and cooperation.
