Facilities Usage Guidelines for Member's Guests

Dear Members and Guests,

We have recently noticed instances where some member's guests have utilized the recreation facilities without paying the required member's guest entrance fees. To ensure fairness and uphold the integrity of membership privileges, all members and their guests are required to adhere to the terms and conditions of the Club.

If there is any accompanied guest using sports and recreation facilities, a guest pass is required. Guest pass could be obtained at the Reception upon arrival by paying the Member's Guest Entrance Fee and relevant facility fee(s).

To enhance enforcement, authorized staff may conduct a membership card or guest pass checking within the club premises. If any member identifies a violation, please reported it immediately to club staff for prompt action.

Thank you for your understanding and cooperation.
