Enhanced Pest Control Measures

Dear Members and Guests,

In response to the mosquito breeding season, Club Siena has implemented intensive pest control measures since April 2024 to elevate members' comfort and safety. Insect repellents are sprayed inside and outside the club premises regularly. Enhanced inspections and thorough cleaning of areas susceptible to mosquitoes have been implemented to prevent and reduce mosquito breeding.

Thank you for your kind attention.

加強滅蟲安排

致各會員及賓客：

海澄湖畔會所因應蚊蟲繁殖季節的來臨，已於今年四月開始加強滅蟲安排。會所範圍內及外圍皆定期噴灑防蟲劑。同時，亦加強檢查及徹底清理容易滋生蚊蟲的地方，進一步預防及減少蚊蟲的滋生，為大家提供舒適安全的會所環境。

敬希垂注。
